

DREAMER

A home away from home

The Dreamer is a popular model for couples, groups of friends or families looking for a home away from home. This lodge has front walls that can be rolled up to expand the terrace and create a real outdoor living space, where your guests can enjoy a quiet moment with a drink or a book and take in the view.

Its simple design belies the luxury within. It comes complete with its own stylish, well-equipped kitchen, dining area and bathroom. Besides a living room, there are separate bedrooms with enough space for proper beds, to ensure your guests have a good night's sleep. With the Dreamer 40 model, you can opt for an open kitchen with a bar on the veranda for the ultimate outdoor living experience. It is perfect for a family holiday or a breakaway with friends.

Our Dreamer is available in two sizes and can be laid out in multiple ways for flexible positioning on many sites. The lodge is suitable for groups of four to seven people.

- ✔ Comfortable, luxurious and simple design
- ✔ The perfect family lodge with a spacious veranda and living space
- ✔ Multiple layouts possible, so you can create the ideal lodge for your guests
- ✔ Option to create an open kitchen with a bar to have a focal point for groups of friends
- ✔ Spacious, yet comparable to the size of a mobile home

SPECIFICATIONS DREAMER

Elements	Colour	Specifications	Technical standards
PVC Roof	Beige Brown Green	UV and flame retardant PVC 650gr/m ² . The PVC is easy to clean and meets the stringent European, British and American fire regulations (M2, B1 and DIN 4102 standard).	BS 7837 DIN 4102 – Class B1 M2 Classification NFP 92-503 EN 13501-1 B-s3, d0 Total weight DIN and ISO 2286-2 – 650 gr/m ²
Flame retardant Polyester (FPTC420)	Khaki	Flame retardant 420 gr/m ² . The fibers in this fabric provide extra security and protection. It is scorch, glow and spark resistant. Textile material that is flame retardant has an inhibiting effect on the occurrence of fire and slow fire spreading.	Weight 420gr/m ² + 5% Standarder width: 150 cm Tearing strenght: ±10% - Warp: 79N - Weft: 53N Tensile strength: ± 10% - Warp: 2800N/5 cm - Weft: 2232N/5 cm Watercolumn: ≥ 400mm Color fading level: GR6 ISO105B04-1994 Mildewtreated: Level 0 AATCC30-2017 Fireproof level: M2 BS7837-1996
KA-46	Khaki	TenCate PolyCotton consists of a perfect blend of 50/50 cotton and polyester. The fibre mixed in the yarn provides a very even performance. The breathable and moisture regulation properties of cotton are complemented by the extra strength and durability of polyester for intensive use, without sacrificing a natural feel.	50% Polyester, 50% cotton Water- and dirtrepellent Width: 205 cm Weight 420 gr/m ² (+/- 5%) Tensile strength Warp (5 cm) 160 daN Weft (5 cm) 120 daN Tearing strength Warp (4,3 cm) 6,0 daN Weft (4,3 cm) 3,5 daN Watercolumn ≥45 cm Colour-weather fastness ≥4
Fixing		The inner tent hanging system is a unique system. It has no point loading, so the weight is equally distributed across the surface of the structure.	
Construction		The connectors of the construction are made from 2.9mm hot dipped galvanized steel. The poles have a dia of 80 or 100mm.	

Why choose us?

It's all in the detail. Our beautiful, sustainable glamping tents are not mass produced, but are created by a team of specialists with a passion for outdoor living. We personally manage every aspect, from the initial concept and product design, to the sourcing of eco-friendly materials and construction, to quality control. And it doesn't stop there, we provide ongoing service and support, long after you bought your tent or lodge.
